

In Stock & Ready To Go!

Stock Standards Program

We at Micron understand that our customers often need a control solution in a hurry. In response to this need, we are proud to introduce our Stock Standard Program. We will be closely monitoring stock levels on over 60 of our most popular Control Transformers to ensure they are *Ready When You Need Them!* Select items from both our ImperviTRAN® and GlobalTRAN® lines will be kept in stock for immediate availability. We will be expanding the Stock Standard Program to include additional items shortly. Contact Micron for your control transformer needs today!
